

# tokenraise

All-in-one blockchain platform for tokens, ICO and STO.

**1** | Create  
your token

**2** | Launch  
your ICO or STO

**3** | List  
your token

# Problem

If you've ever tried launching a Blockchain Project, you already know that **it takes a long time** to build and a big investment in terms of **resources** and **money**.

Every company that decides to launch its Crowdsale , in fact, faces a series of challenges such as:

## DEVELOPMENT

Among 20 million of world's software developers, only 0,1% of them, knows what a blockchain code looks like.

## BUDGET

Technical implementation of an ICO varies from \$80,000 – US\$100,000

## TIME

Every Customization on your Smart contracts requires long tests, might cause delays and increase security risks.

## RELIABILITY

3,4% of existing Smart contracts are proved to be faulty, putting **US \$289 M** at risk.

# Solution

A lean interface with clear and clean graphics; a secure and easy-to-use platform, which frees you from the need to organize job interviews.

Also, an accelerator because you no longer have to wait and find developers

## DEVELOPMENT

Choose your Crowdsale specifics and have it ready to run in a matter of minutes.

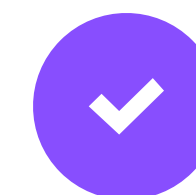

## BUDGET

Tech implementations costs reduced from 50% to 85%

## TIME

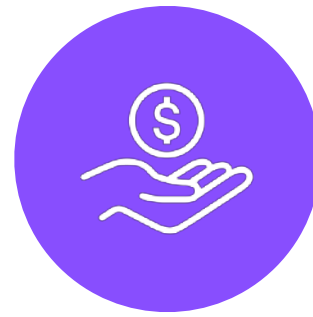

26 interconnected smart contracts are interconnected within the platform, giving you a various array of options.

## RELIABILITY

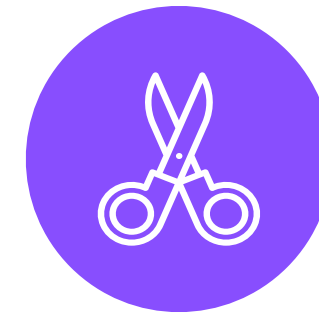

Our platform is fully audited and tested. Moreover, it has been used for multiple projects already (raised \$30M +)

# Competitive Advantage
